Breaking News

Karen Women Organization (KWO) just learned from one of the refugee leaders in Nong Bua that the Thai soldiers announced to them today that tomorrow on the 5th of February, at 7 am, 37 families with a total of 161 people will be repatriated to Karen State, Burma. KWO and community leaders consider this a forced repatriation, not a voluntary or not spontaneous.

We urge all representatives of UNHCR and NGOs to be present at the site to witness this event and assist the Karen people to prevent this happening.

We implore all organizations concern with the wellbeing of Karen people to advocate against this proposed action.
